

UFSC1600GCP

Display Freezer

Product features

- Adjustable shelves
- 2 separate cooling systems (higher safety)
- Improved product presentation
- Improved ventilated cooling
- LED illuminated canopy
- LED light in door frame
- Less maintenance

Adjustable shelves

Digital thermostat

3-door display freezer with canopy

Our 3-door display freezer with canopy - UFSC1600GCP-P is a perfect choice for stores wanting to utilize their limited space best possible.

It has 2 separate cooling systems making problems with one system less alarming. In addition 3 layered glass with coating, frame heater, 2 internal fans and an improved door opening system makes sure that cooling is optimized.

Door glass, shelves, LED light in the doors and the finish in general has been improved in order to optimize the presentation of the displayed products.

The shelves are adjustable making this freezer flexible for displaying products of different sizes. You can for example also have different shelf positions per door instead of one big shelf - this gives a more flexible product display. Middle shelves are 535 mm wide. Side shelves in both sides are 465 mm wide.

The 3-door freezer is well suited for e.g. supermarkets, convenience stores and gas stations.

UFSC1600H-P also comes in a cooler version - FSC1600H-P.
