Short Description

SV 124 X is both a freestanding and build-in model. The wine cabinet has two temperature zones that can be adjusted between 5°C – 18°C independently of each other. With 7 1/2 shelves in beech wood with metal edge trim, of which 6 are pull-out and 1 1/2 stationary, it can hold up to 126 bottles. A fine cabinet for wine storage.

The cabinet has a timeless design. The door frame in stainless steel and the interior light give the cabinet an exclusive look. Right-hinged door with option for door reversing gives you the flexibility to place the wine cabinet anywhere in the room.

2 horizontal LED light provide a good light and represent the wine bottles nicely. The cabinet has an intelligent air circulation system, that ensures perfectly ventilated, anti-vibration cooling throughout the entire cabinet.

SV 124 X has UV-glass and is electronically controlled. The digital control panel makes it easier to see and adjust the temperature in the cabinet.
