

TC37

Ice Maker

ECO-FRIENDLY
REFRIGERANT R290

Product features

- Cubed ice approx. 31x35x31mm (18 g)
- Production Capacity: 37 kg/24 h
- Storage Capacity: 16 kg
- Low energy air-cooled system
- Spray system produces individual clear ice cubes
- Self-contained ice machine with storage
- Ag+ easy to clean surfaces in the storage bin
- Waste water drain pump for safe water drainage
- High quality SS304 stainless steel
- 4 Legs and 4 adjustable feet included

Easy to clean
condenser filter

Ice cube dimensions

Clear ice maker machine in stainless steel

The TC range of ice makers uses a spray system to produce crystal clear, slow melting ice cubes. This makes the unit ideal for use in cafes, restaurants, pubs, bars, fast-food venues, and other hospitality establishments that require ice for drinks, cocktails, or keeping food such as fresh fish cool.

The exterior of the unit is made from 304 stainless steel; the door at the front of the unit allows quick access to an insulated storage bin, which features Ag+ antibacterial technology to help prevent the formation of bacteria and odors. To ensure that the ice cube maker runs efficiently, the unit has a air filter that is easy to remove and clean.

The unit comes with an integral quiet running magnetic water pump to remove excess water. This allows more options of where the ice maker can be positioned, meaning that the unit does not need to be located directly above a drain.

The TC ice maker uses a low energy air-cooled system, which means it takes in the surrounding air and uses this to cool down the refrigeration system. The capacity of the ice maker is therefore affected by the ambient temperature surrounding it as well as the temperature of the water it takes in.

Design and Material		Measures and Content		Power and Consumption			
Feet / Legs	4 adjustable feet and legs	Capacity Ice Production	kg/24h	37	Energy Consumption	kWh/24h	10,4
Exterior Finish	SS304	Capacity In Ice Container	kg	16	Annual Energy Consumption	kWh/year	3796
		Size of Ice Cubes	mm	31 x 35 x 31 (18g)	Power		1
		Water Consumption	l/24h	57	Input Power	W	520
		Climate Class		5	Voltage / Frequency	V/Hz	220-240/50
		Gross / Net Weight	kg	48 / 40	Dimensions
